This application is being filed as a result of the consolidation of the Incline Village General Improvement District (IVGID) and the Crystal Bay General Improvement District water systems. The entire IVGID service area will be served through the Burnt Cedar intake facility. A total of six applications are being filed concurrently to change those water rights which have not already been perfected by IVGID through the Burnt Cedar point of diversion.

Please use maps on file at the Division of Water Resources under Application 40509 to support the proposed point of diversion and Application 21923 to support the existing point of diversion and place of use.
